

Red Rock Reservoir Depth at Elevation 732, NGVD

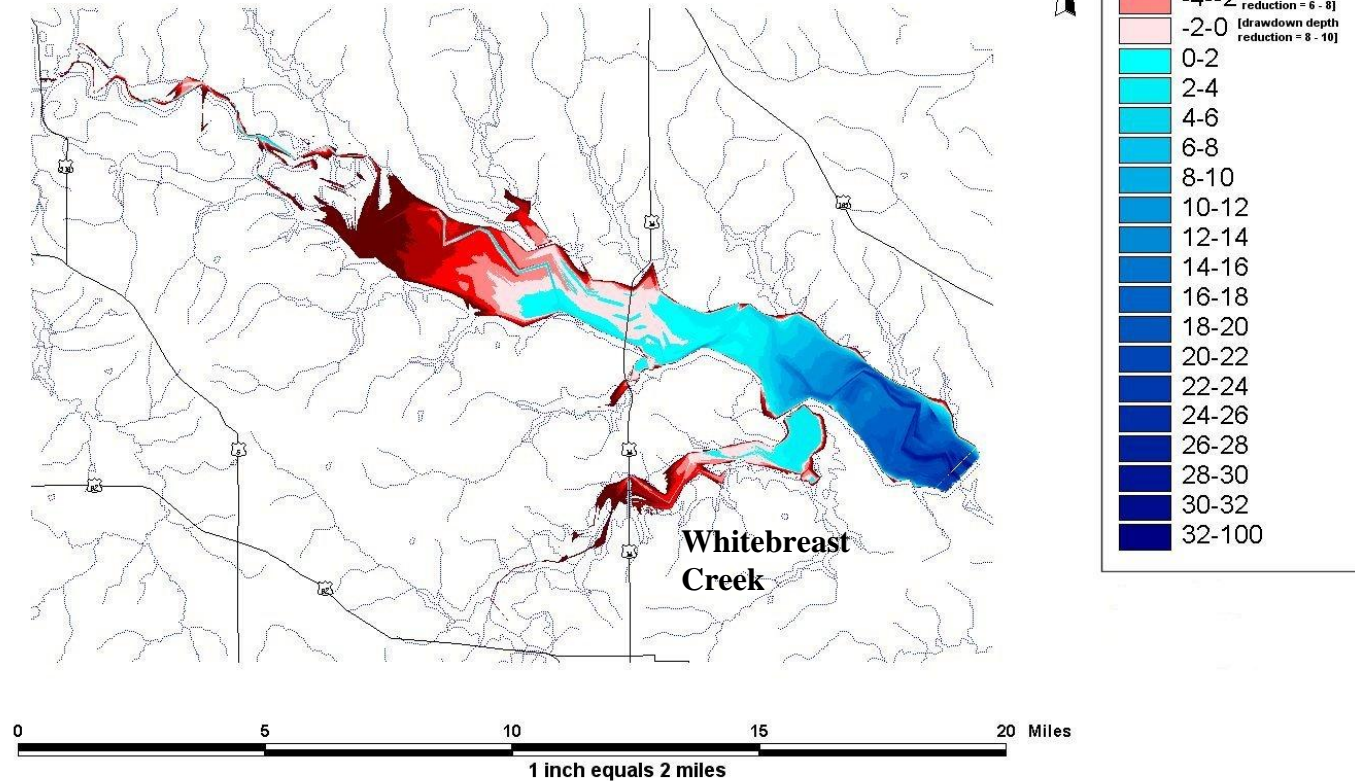

Figure 2. Red Rock Reservoir Depth at Elevation 732 feet NGVD

- Notes:
1. Map based upon a 10-foot pool drawdown from 742 to 732 feet NGVD.
 2. All red pool areas become mud flats; this includes most pool areas upstream of Highway 14.
 3. Dewatered pool area represents ~50% of 742 conservation pool area.
 4. Based on 2001 bathymetric survey data and 1999 aerial survey data.
